DETAILED ACTION

Claim Objections

Claims 40-44 are objected to because of the following informalities: In claim 40 line 9, "the molded plastic housing" lacks antecedent basis and is contradicted by claim 42, which discloses "glass". Appropriate correction is required.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 40, 41, 43 and 44 are rejected under 35 U.S.C. 102(b) as being anticipated by Hirai et al. (US 6,059,601).

Hirai discloses an electrical strip connector comprising: a molded housing (8) of insulating material / plastic; a stamped insert (Fig.9) having a plurality of contacts (3) secured to the molded housing; a removable tab (11) attached to the stamped insert and removable by severing along a line of attachment / scribed line (12); means for attaching (3b) an electrical wire to each contact; and a side extension (see following figure) formed on each side of the contacts and being anchored within the molded housing.

FIG. 9

Claim 42 is rejected under 35 U.S.C. 103(a) as being unpatentable over Hirai in view of Hawkins et al. (US 6,029,089).

Hirai discloses substantially the claimed invention except for the use of glass on the housing. Hawkins teaches the use of glass on a housing to provide visual confirmation of the electrical connection. Therefore, it would have been obvious to a person of ordinary skill in the art at the time the invention was made to form the housing comprising glass, as taught by Hawkins, to provide visual confirmation of the electrical connection.

Response to Arguments

Applicant's arguments with respect to claim 40 have been considered but are moot in view of the new grounds of rejection.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within

TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
